

Business OperationsSafety**Risk Management and Safety Committee**

This school district is committed to providing and maintaining a safe and healthful work and educational environment. Safety and health management is the ultimate responsibility of the Board of Education. Functional authority for continued development and implementation of health and safety is hereby delegated to the Superintendent or the Superintendent's designee. The Superintendent or the Superintendent's designee is directed to establish the Safety Committee or committees required by law. The Safety Committee(s) so established shall adopt and maintain an effective written Injury Prevention Program. Management shall participate in the Safety Committee(s), and in safety education and training, and establish safety rules, policies and procedures as provided in this policy, the school district's written Injury Prevention Program and as otherwise provided by law.
